

Supplier RFP Response

Orbit Digital

Procurement Request: Enterprise Data & Analytics Platform Implementation

Proposal Reference: RFP-2026-014 **Submission Date:** August 2026

1. Executive Summary

Orbit Digital offers a balanced solution combining competitive pricing, practical cloud architecture and relevant delivery experience. The proposal focuses on business outcomes and controlled delivery.

2. Technical Capability

The solution uses cloud ingestion and transformation, governed storage, semantic models and reporting. API and secure file integrations are supported. Architecture detail is solid but less comprehensive than the most detailed competitor.

3. Implementation Plan

Orbit proposes a 24-week delivery with defined phases and a cross-functional team. The plan includes discovery, architecture, build, integration, testing and transition, with identified risks and dependencies.

Phase	Duration	Key Activities
Discovery	3 weeks	Requirements and source assessment
Platform Build	5 weeks	Core platform and data model
Integration	7 weeks	Priority source integrations
Testing & Reporting	5 weeks	Dashboards, testing and remediation
Go-Live	2 weeks	Training and transition

4. Commercial Value

Orbit's pricing is mid-range with a clear implementation cost breakdown. Assumptions cover client resources, cloud subscriptions, third-party licenses and change control.

Component	Estimated Cost (USD)
Discovery & Architecture	\$130,000
Platform & Data Foundation	\$340,000
Integrations	\$420,000
Reporting & Testing	\$250,000
Transition & Knowledge Transfer	\$110,000
Total Professional Services	\$1,250,000

5. Security & Compliance

The proposal covers RBAC, encryption, audit logging, secure deployment and vulnerability management. Privacy and auditability are addressed, although certification evidence is less extensive.

6. Support & Experience

Orbit describes relevant analytics and data-platform implementations and offers structured support with service management and escalation.

7. Proposal Summary

Orbit presents a well-balanced proposition with good technical capability, practical implementation planning, competitive pricing and relevant experience.
